MIKE SPEIGHT

Senior Digital Consultant

Project Manager • Scrum Master • UX/UI Consultant

PROFESSIONAL PROFILE

Senior Digital Delivery Consultant with extensive experience delivering Agile, UX/UI-focused digital projects and cross-functional delivery initiatives across enterprise, public sector, retail, media and e-commerce environments.

Strong background delivering customer-focused digital solutions for organisations including H&M, Thales, Ford, BBC, ASOS, Pearson and multiple London Borough councils.

Combines delivery leadership, stakeholder management, UX strategy and technical understanding to deliver practical digital change within consultancy and contract environments. Early adopter of Agile and Scrum methods, with hands-on experience in enterprise Scrum adoption and delivery improvement.

PROFESSIONAL EXPERIENCE

Digital Direction (Consultants) - Senior Digital Delivery Consultant / Scrum Master / UX Consultant | 2010 - Present

Independent consultant delivering Agile, UX, digital delivery and project leadership services across enterprise, public sector, retail and consultancy clients.

H&M - Project Manager / Scrum Master | 2022 - 2023

Led the SEO Centre of Excellence team, improving Agile delivery coordination, team alignment and stakeholder collaboration within a distributed international environment.

Thales - Scrum Master / UX Architect | 2021

Worked on the TIRIS Smart Maintenance platform for the rail industry, supporting Agile delivery, requirements discussion and UX-focused solution development

Mitivity - Project Manager / Scrum Master | 2019

Managed Agile delivery activity for a marketing acceleration platform, coordinating priorities across multidisciplinary teams.

London Borough of Waltham Forest - Scrum Master / UX Consultant | 2017 - 2019

Supported the delivery and launch of multiple council websites and digital services, helping improve delivery structure, usability and accessibility awareness.

London Borough of Croydon - UX Consultant / Agile Coach | 2016

Supported improvements to the council website and digital services, combining UX Consultancy with Agile coaching and delivery support.

Ford - UX Consultant / UI Consultant | 2016

Worked on customer-facing digital journeys, including product pages and dealer-location functionality, contributing UX and Interface consultancy within a larger delivery environment.

Daily Telegraph - UX Consultant / UI Consultant | 2015

Supported digital platform enhancements and usability improvements across online publishing products.

Bid on This - Scrum Master / Agile Coach / UX Architect | 2015

Contributed to the development of Bidonthis.co.uk, supporting Agile delivery practice, user journeys and UX architecture.

Market.com - UI Consultant / UX Architect / E-commerce | 2014

Supported e-commerce user interface and customer journey improvements.

Hotels4u - UI Consultant / UX Architect | 2014

Worked on user interface and experience improvements for Hotels4u.com, focused on customer engagement and usability.

Pearson Publishing - UI Consultant / UX Architect | 2013

Contributed to Pearson.com, supporting user interface and user experience improvements.

Sportlabs Technology - UI Consultant / UX Architect | 2013

Worked on sporting websites and digital products, applying user-centred design principles to improve usability.

HH Global - UI Consultant / UX Architect | 2012

Worked on a print management web application, enhancing usability and interface structure.

ASOS - UI Consultant / UX Architect | 2011

Contributed to the ASOS Lookbook project, supporting customer engagement through UX and interface design.

BBC - Accessibility Consultant / UX Architect | 2010

Contributed to accessibility-focused digital work supporting disabled users and inclusive web experiences.

LBI - Front-End Developer | 2010

Worked on Tourism Ireland digital delivery, contributing to front-end implementation within a wider agency project team.

CONSULTANCY FOUNDATION**EMC Consulting / Conchango - Senior Technical Consultant, Digital Delivery & UX | 2002 - 2010**

Delivered enterprise digital consultancy projects, UX-focused initiatives and Agile delivery solutions within fast-paced client-facing consultancy environments. Contributed to Scrum Process Guidance work connected with Microsoft Visual Studio Team Systems and worked in proximity to leading Agile practitioners during the formative years of enterprise Scrum Adoption.

EARLIER WEB CONSULTANCY

Earlier independent and contract work included front-end development and digital delivery assignments for clients and agencies, including NUS, World Vision, Intel, BT, KPMG, EBRD, Morgan Stanley and Rothschild. This experience developed a strong practical grounding in web delivery, client communication and the realities of complex digital implementation.

EARLIER CAREER SUMMARY

An earlier career also included PC support management and commercial leadership. This wider background provides a broad commercial and technical foundation, combining delivery discipline, stakeholder communication, operational management and practical web technology experience.

TECHNICAL & DELIVERY ENVIRONMENT

Agile | Scrum | UX strategy | Digital delivery | Stakeholder management | Discovery | Workshop facilitation | Accessibility | SEO | Web technologies | CMS platforms | Public sector delivery | Consultancy | Cross-functional team leadership | Supplier coordination | E-commerce | Digital transformation

PROFESSIONAL DEVELOPMENT

Scrum Master training and certification completed in 2007. Practical Agile and Scrum delivery experience across consultancy, enterprise, e-commerce and public sector environments.
